ONE CENT.

Over Thirty Years Without Sickness.

Mr. H. WETSTEIN, a well-known, enterprising citizen of Byron, Ill., writes: "Before I paid much attention to regulating the bowels, I hardly knew a well day; but since I learned the evil results of constipation, and the efficacy of

AYER'S

Pills, I have not had one day's sickness for over thirty years—not one attack that did not readily yield to this remedy. My wife had been, previous to our marriage, an invalid for years. She had a prejudice against cathartics, but as soon as she began to use Ayer's Pills her health was restored."

ACCORDING TO SCIENCE.

There is a man in our town
(His name my memory slips,)
Who kissed a thousand microbes
Off his sweethearts ruby lips.
And when he found what he had done,
With all his might and main,
He pushed up there another night
And kissed them on again.

THE GOBLIN'S ECSTASY.

A Thanksgiving Lay-out That Will Find Many Heartly Responses.

A Goblin thus upon his fate
With resignation prated
When called unto the hounds' block
To be decapitated:

My goblin, said the goblin, I am a goblin
But there's compensation for my voice
When I think my noble or her will hang

With many sides, other by side,

In a trap array upon a hock,

A London Page, Gobelin,

Corner of Third and Market street.

The stranger will stop and take a look

At this gorgous store and say,

At my life I never held

Such a speech as this to give

Oysters, Fruits and Candy,

Why, this store surely takes the cake,

And Bob Lovel is a dandy.

Behold, in rich profusion piled,

Sugars, Coffee, Jams and Spices,

Nuts and Raisins and the proper things

For the goblin's goblin and lees;

Mincemeat for a royal pie,

Juicy Hams of various sizes,—

In fact, the stranger will meet with

Wit continual surprises.

And as he wanders 'round that store,

An amazed at all he's seen,

Such a speech as this to give

With Bob Lovel, reflected on me;

And as the stranger smacks his lips,

Thinking of Mincemeat Pie and Cobbler,

He'll turn to where my carcass hangs

And say, "Jinx gaze on that fat Goblin!"

Then he'll pull in pocket-book,

Buy this and that, turn this and there,

Go away, o come back, buy and there,

And when his wants are satisfied,

And he looks upon that head,

He'll find it cool so little.

Then, resting on his fat head,

Among other delicacies,

A scuffed browned thing of beauty,

To the crowd of happy faces

Thanks their will flow; no matter if

It's to be fair or murky,

And blisters, fall, fall us both,

Bob Lovel and his Turkey.

The Editor of The Manchester Signal wants some of his delinquent country subscribers to send him 100 bushels of corn to square their accounts. We have been requesting some of ours to send the cash; or if that wasn't convenient to send anything in the shape of turkeys, chickens, geese, eggs, butter, lard, hams, bacon sides, backbones, sparers, sausage, apple butter, cheese, cider, turnips, parsnips, cabbage—oh, well, anything that will feed the hungry. But there hasn't been an echo. If we should call for our delinquents would not even send the cash.

The Chesapeake and Ohio Railway has added another beautiful novelty to the list of attractive things which it has so successfully used to advertise that splendid railroad. The newest thing is an embossed silver bracelet brought from Germany. It is without doubt the most beautiful thing of the kind ever used by a railroad in America. A bouquet of flowers holds on its tiny breast a tiny but perfect thermometer, a dials that one can keep track of the train you want. In every way it is a real novelty and an ornament for any house.

The idea is that of Mr. C. B. Ryan, the enterprising, popular and very successful Assistant General Passenger Agent of the great Chesapeake and Ohio Railway. Send ten cents in two-cent stamps and receive in return one of these decided and desirable novelties.

The kidneys separate what is bad from what is good, what is healthy, throw out the bad and let the good pass on to nourish our body. And this is going on every minute of our lives.

Some folks overwork their kidneys. They have to suffer the consequences. But the consequences would not be so bad if they would take Dr. Hobbs' Sprague Kidney Pills.

The kidneys get overworked from worry, hard work of the body or mind, eating overcooked, etc.

Worry is probably the most common of these causes.

Overwork of the kidneys makes them sick, and they make us sick.

When the kidneys are sick the blood suffers. It gets poor, thin, unhealthy, poisonous.

When our kidneys are sick we may have Bright's disease, diabetes, nephritis, and other dangerous kidney troubles.

Or we may have rheumatism, gout, anemia, general muscular weakness, etc.; or anemia, pale and swollen complexion, chlorosis or green sickness, dizziness, etc., or skin diseases, pimples, blisters, etc.

It may seem wonderful that one medicine

can cure all these diseases, but they are all caused by impure blood, and the blood is caused by the kidneys.

For the kidney trouble is caused by the kidneys being overworked, and the kidneys are the chief organs of the body.

WE'RE FOR AMERICA & AMERICANS!

CLEVELAND's forthcoming message is awaited with considerable curiosity by a large number of people who cannot imagine how he is going to account for the recent reverses of his party without saying some severe things about his own Administration.

The late E. D. JORDAN, the Boston dry-goods millionaire, was a fatherless boy who went to work on a farm at the age of 14 for \$4 a month. Socialists who denounce plutocrats should say where they would draw the line against small boys who start in life with nothing but a capital of American grit and American opportunities.

The Knights of Labor General Assembly has issued a boycott against JOHN WANAMAKER, because informed that 1,600 women and girls employed by him are compelled to belong to a relief association over which they have no control. Wonder these fellows don't boycott weather, which they are compelled to endure and over which they have no control.

It was NICHOLAS I., of Russia, in January, 1844, in conversation with the British Minister at St. Petersburg, who called Turkey the sick man of Europe, and proposed that the leading Powers should partition the Empire and obliterate it from the map as an independent Nation. But England supposed that Russia had designs on Constantinople, and, instead of an absorption of Turkey, there was the Crimean War, in which France and England allied themselves with Turkey against Russia. And now the extra cost of coal when steam is kept up on the British fleet in the neighborhood of Constantinople is \$35,000 a day. Turkey is an expensive luxury to all of the Powers, and will be eliminated as a matter of economy.

Kept the Appointment.
In one sense the world is growing smaller every year. Traveling facilities are constantly increasing, and distant places seem less remote. This reflection is induced by an incident reported in The New York Tribune.

A man whose check was bronzed by exposure walked up to the desk of the Fifth Avenue Hotel the other day, and asked the clerk if it was certain Mr. C. was and was in the house.

"Yes," said the clerk, "he arrived this morning from Europe."

The caller sent up his card, and in a few moments word came back that he was to go to the parlor. As he turned to go, he said:

"I haven't seen Mr. So and So for almost a year. I met him in Cairo, Egypt, about the first of last September. We were interested in a certain master of business, and after talking it over we made an appointment to meet here to-day at 3 o'clock for a further conference. It is now five minutes past 3."

The reader of this paper will be pleased to learn that there is at least one dredged treatment that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh is a safe and positive remedy for all forms of chronic catarrh.

Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous membranes, and thus attacking the very foundation of the disease, and giving the patient strength by building up the constitution and restoring nature in doing its work. The proprietors have so much faith in its curative power that they offer a hundred dollars to any one that it fails to cure. Send for list of testimonials.

The highest human habitation in the world is said to be the railroad station at Galena, Peru, lying 15,650 feet above the sea.
